15-16 September, 2020

International Exhibition Centre EXPO, Nur-Sultan

International Security Exhibition and Conference

KAZAKHSTAN SECURITY SYSTEMS 2020

**EVENT'S PROFILE
IS DIVIDED INTO
FIVE MAIN SECTORS:**

Anti-terror protection of objects

Comprehensive protection systems for terrorist-vulnerable facilities, including critical state, strategic, hazardous production facilities and places of mass accumulation.

Cybersecurity and information protection

Modern software and hardware solutions designed to monitor, detect and prevent cyberthreats of various types.

Smart Security Systems

New security solutions for the Smart City, Office, and Home with Artificial Intelligence, Cloud Services and IoT.

Technical means and equipment

Special means and equipment for law enforcement agencies, military formations and special services.

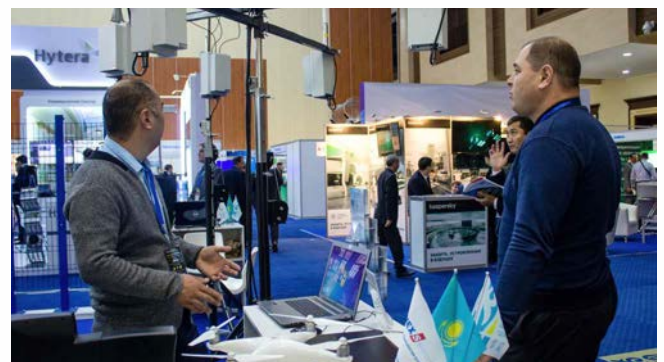

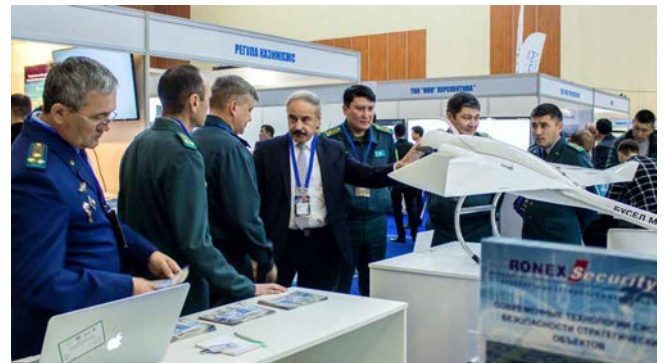

Fire Safety and Emergency Rescue

Firefighting equipment and fire alarm systems. Emergency rescue equipment.

Kazakhstan Security Systems

is the only business event in Central Asia, covering all aspects of security and representing comprehensive technical solutions for the protection of both state and strategic industrial facilities, as well as for private business and home. It is a large-scale congress event with a saturated business program, including industry conferences and round tables, training seminars and presentations.

PARTICIPANTS TESTIMONIALS

Evgeniy Pitolin

Kaspersky in Kazakhstan, Central Asia and Mongolia

“We are participating this event during several years in a row and we would like to say that the level of organization, preparation and especially the quality of audience are getting more exceptional from year to year”.

Timur Mingulov

Promex Fire Protection

“So-called workshops are provided and can be used to unleash the potential of our production and opportunities. I think that KSS is a good platform for the development of business in Kazakhstan”.

Denis Logvinenko

NPO Perspective

“It is not the first time of our participation in this exhibition, it is our second KSS exhibition within the frames of security and IT-solutions. It is a great honor. We will continue participating”.

Igor Ponamarenko

NPF Mediland

“Our company is participating in Kazakhstan Security Systems exhibition for the 4th time. It is a very interesting platform where you can meet potential clients, who are hard to find due to their closed and special position”.

Fakhriddin Khalmatov

Sigur

“I want to thank the organizers for the active and fruitful meetings we had at this exhibition”.

VISITORS TESTIMONIALS

Yestauletov T.T.

Head of security and protection bureau, “Kazzinc” Bukhtarminskiy Energy Complex, Serebryansk city

“The event was very helpful; we are now preparing the documents to purchase the equipment block that was presented on KSS19 exhibition. Participation in the conferences dedicated to Anti-terror protection of objects particular in energy section was very useful”.

Karamuldinov Z.K.

Head of Almaty International Airport aviation security service office

“We were interested in anti-ram and vehicle barriers. Exactly this production was presented on the exhibition, we met the manufacturer representatives and attended their presentation. Everything was interesting. We could learn many topics on Anti-terror protection conference, as we are organizing anti-terrorist training annually”.

Dzhiengaziyev R.E.

Senior IT security specialist of Pavlodar petrochemical plant

“Cybersecurity conference covered the troublesome topics, presentation of mr. Pitolin from Kaspersky and lecture of the center for analysis and investigations of cyber attacks were especially interesting and useful. Many technical issues were discussed. Opinion and experience exchange always gives an opportunity to look at your own work from the different angle. Besides, we could physically observe necessary equipment, particularly antidron devices and barrier installations. Thank you”.
